SUMMARY OF AUDIT FINDINGS

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	0
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Auditor review PAQ and had discussions with staff.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

Yes

No

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

Yes

No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

Yes

No

88. Informal conversations with staff during the site review (encouraged, not required)?

Yes

No

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

No text provided.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

Yes

No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	2	1	1	1
Staff-on-inmate sexual abuse	0	0	0	0
Total	2	1	2	1

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	1	0	1	0
Total	1	0	1	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted

Staff-on-inmate sexual abuse	0	0	0	0
Total	0	0	0	2

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. 115.211 (a)

An agency shall have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency’s approach to preventing, detecting, and responding to such conduct.

The agency/facility published the above agency policies. The policies mandate a zero tolerance toward all forms of sexual abuse and sexual harassment. The policies outlined the approach to prevent, detect, and response to sexual abuse and sexual harassment.

The agency policy clearly defines general definitions and definitions of prohibited behaviors to include sexual abuse and sexual harassments.

Policy: APT Foundation, Inc. APT Residential Services: PREA Policy Section – 115.211:

(a) The APT Foundation maintains zero tolerance towards all forms of sexual abuse and sexual harassment throughout the agency.

The APT Foundation, APT Residential Services maintains a comprehensive approach to preventing, detecting, and responding to a PREA-qualifying event. This goal is accomplished through:

1. Comprehensive PREA education for staff:
2. Use of technology to improve facility monitoring:
3. Identification of at-risk persons and potential predators for risk planning for the safety of all persons.
4. Providing high quality substance abuse, mental health and primary care services through professional, compassionate staff; and
5. Timely review should a PREA-qualifying event occur, including planning to minimize risk of future occurrence.

(b) The APT Foundation designates the Director of Clinical Operations/Compliance Officer as the PRE.A Coordinator for the agency, The Director of Clinical Operation/Compliance Officer is a senior level manager with sufficient time and authority to develop, implement and oversee agency efforts to comply with PREA standards. This PREA Coordinator is designated on the APT Foundation’s organizational chart.

115.211 (b)

An agency shall employ or designate an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities.

Central Office Staff: Agency head/designee question, has the agency identified an agency PREA coordinator with enough time to manage all PREA related responsibilities? The agency/facility has a PREA Coordinator that manage all PREA related responsibilities.

Agency Staff: PREA Coordinator question, do you feel that you have enough time to manage all of your PREA-related responsibilities? Yes. PREA related concerns would be considered an immediate priority for me to address. Any other responsibilities would be secondary in the moment.

Agency Staff: PREA Coordinator question, discuss how you coordinate your agency's efforts to comply with the PREA standards. As PREA Coordinator, I participate in planning forums where prevention mechanisms like staffing and monitoring is discussed. I coordinate all training functions for staff as they related to PREA. I am utilized to respond to questions regarding PREA policy and facility operations. I am also part of the team that consults on housing decisions for transgender persons.

Agency Staff: PREA Coordinator question, if you identify an issue with complying with a PREA standard, what actions or processes do you undertake to work toward compliance with that standard? I have full latitude with PREA policy and compliance. If I were to determine we were out of compliance, I would develop a draft revised policy for review by both Facility and Agency Leadership. After incorporating any feedback leading to a formal revision, I would develop and implement a training plan to the revised policy. The PREA Coordinator and Facility Leadership would monitor compliance with revised policy to ensure changes met the intended compliance outcome for three to six months. If the desired outcome did not occur, the process would complete. If it is deemed earlier than three to six months the revised policy was not effective, revision could come sooner.

Discussion: The agency/facility has PREA policies which ensure the sexual safety of facility residents and staff. The policy includes zero-tolerance philosophy from the from the agency central office through the front-line staff in its facilities. The agency/facility PREA coordinator has direct access to the head of the agency and regular communicate with the senior leadership team.

115.213 (a)

For each facility, the agency shall develop and document a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, agencies shall take into consideration:

- (1) The physical layout of each facility.
- (2) The composition of the resident population.
- (3) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
- (4) Any other relevant factors.

State of Connecticut Purchase of Services Contract with (Department of Correction) and The Connection, Inc. Original Contract 21DOC01112AA section 10 page 10 states, "The contractor shall provide 24/7 on-site supervision of residents. The staffing matrix submitted with the contractor's proposal to the Department's REP #DOC-Res/Non-Res/PS-2021-SM, which is on file the Department, provides the staffing, patterns, and schedule to be maintained for the duration of this state fiscal year unless otherwise authorized by the Department.

The contractor shall assign the following staff to the program. Said staff shall be responsible for implementing and providing the required services.

The Staffing Matrices are established by the funding source however the funding source is open to suggestions based on the agency's on-going assessments of their needs. The staffing matrix is submitted every year. If the agency/facility has changes to recommend, the funding agency does give consideration to the justifications for the requests.

The facility has cameras to supplement supervision of residents. They are located in and out of the facility to help eliminate blind spots and to assist in monitoring during security.

Policy: APT Foundation, Inc. APT Residential Services: PREA Policy Section – 115.213:

1. The APT Foundation maintains a staffing pattern that meets all regulatory requirements for a ASAM Level III.3 intermediate, long-term residential treatment. The facility is licensed for 170 beds, with an average census of 150.
2. The facility is staffed 24-hours per day with males and females housed in separate buildings on the campus. The Medical Unit separates the male and female buildings. The Medical Unit can be closed at either the Male or Female side to ensure separation of genders while receiving services at the Medical Unit. There is no mixed gender clinical programming at the facility.
3. The facility maintains a comprehensive video surveillance system. This system was purchased and installed as the APT Foundation moved to the 54 East Ramsdell Street, New Haven location in 2017.
4. The APT Foundation completes an annual review of staffing patterns as part of the budget planning process. The staffing review considers any PREA-qualifying event that may have occurred during the period.
5. The annual review will also include potential need for technology upgrades.

6. Although staffing and technology requirements are reviewed at least annually, any PREA qualifying event at the facility would consider staffing and technology needs as part of the Review progress.

Central Office Staff: Agency PREA Coordinator question, when assessing adequate staffing levels and the need for video monitoring, please explain if and how the facility staffing plan considers standard requirements. The staffing plan consider all the components of the facility's physical plant to include blind spots. The composition of the resident population, the prevalence of substantiated and unsubstantiated incidents of sexual abuse and any other relevant factors.

Facility Staff: The Program staff question, does your facility has a staffing plan? Yes. The staffing plan is based on the funding agency and the RFP approval. However, the agency/facility do meet the minimum staff requirements.

Discussion: The staffing plan minimum requirements are determined by the funder, Department of Corrections. The number of residents in the program will determine the minimum number of staff that should remain on the floor at all times. The minimum staff requirements can never be deviated from so the staff will always ensure that the minimum staffing is present on the floor. The facility has video monitoring in blind spots throughout the facility and continue to add cameras as money becomes available. Staff complete hourly headcounts/rounds as an additional means of supervision.

115.213 (b)

In circumstances where the staffing plan is not complied with, the facility shall document and justify all deviations from the plan.

The facility staffing plan is based on the contract with CT DOC. In circumstances where the staffing plan is not complied with, the facility document and notified DOC of deviations.

Central Office Staff: Agency PREA Coordinator question, who reviews and follow up on deviations from the staffing plan? In situations in which a deviation is made from the staffing plan, written justification for such deviation is documented and sent to the PREA coordinator/compliance manager by the facility supervisors.

115.213 (C)

Whenever necessary, but no less frequently that once each year, for each facility shall assess, determine, and document whether adjustments are needed to:

- The staffing plan established pursuant to paragraph (a) of this section.
- Prevailing staffing patterns.
- The facility's deployment of video monitoring systems and other monitoring technologies; and
- The resources the facility has available to commit to ensure adherence to the staffing plan.

Central Office Staff: Agency PREA Coordinator question, if the staffing plan for the facility is reviewed at least once every year, are you consulted regarding any necessary adjustments? The staffing plan is reviewed annually. Yes, per protocol, the PREA coordinator participate and is consulted with development of the plan.

Discussion: The staffing plan is objective with the number and placement of staff and some video technology that is necessary to ensure the sexual safety of the resident population given the facility layout and characteristics, classifications of residents, and security needs and programming. The staffing plan considers sick leave, vacation, FMLA, callouts, training days, military leave, etc...

The agency/facility make its best efforts to comply on a regular basis with the staffing plan and the facility document deviations from the staffing plan. Annually the agency/facility make adjustments as needed to resource the facility has available to commit to ensure adherence to the staffing plan. The agency PREA coordinator/Facility Compliance Manager is a part on the annual review.

The agency/facility intermediate-level and upper-level supervisors conduct unannounced rounds on all shifts to prevent, detect and respond to allegations of sexual abuse and sexual harassment. Staff is prohibited from alerting other staff members of PREA unannounced rounds.

115.215 (a)

The facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

Policy: APT Foundation, Inc. APT Residential Services: PREA Policy Section – 115.215:

1. The APT Foundation does not conduct strip search and body cavity searches. If such a search was deemed necessary, determination of necessity for the search is done in collaboration with the Director of Residential Services or another Senior-level manager. If a search was deemed necessary, it would be conducted by a member of the Medical Staff. The facility does not conduct body cavity searches under any conditions. If a strip search were to occur, the rationale and findings of the search would be documented in the client record.
2. The APT Foundation only utilizes non-invasive methods to complete pat-down searches. This method is supported and taught by the State of Connecticut Court Support Services Division. This method of search utilizes a "hands-out" sliding motion using only the back of the hand without potential for cupping.
3. There is no cross-gender pat-down searches on either the women or men's unit
4. There are no males that work on the female unit. Females may work on the male unit in general areas of the male unit, however, they do not enter the sleeping and restroom facilities. Residents are afforded the utmost privacy in restroom/shower areas where the restroom has stalls and doors and the showers have stalls/curtains and the doors to the restroom/shower areas may be closed as well. Staff are respectful of residents living areas and their privacy.

Facilities shall not restrict female residents' access to regularly available programming or other out-of-cell opportunities in order to comply with this provision.

The facility does not permit cross-gender pat-down searches.

115.215 (c)

They were asked: Have you received training on how to conduct cross-gender pat-down searches and searches of transgender and intersex residents in a professional and respectful manner, consistent with security needs? Twelve (12) interviewed random staff reported that they are not allowed to conduct cross-gender pat down searches. Most of the interviewed staff could articulate that they are to search in a professional and respectful manner and that they receive training/discussion that is conducted during orientation.

Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing.

Discussion: All staff announces their presence prior to entering a resident room. Staff of the opposite gender only enter a bathroom for exigent circumstances and announce their presence prior to entering a bathroom. Resident have the right to shower, perform bodily functions, and change clothing without staff viewing the resident.

Observation: The auditor observes staff of the opposite gender announce their presence when entering resident rooms and bathrooms.

Facility Random Staff: Twelve (12) staff were randomly interviewed. The random staff representing staff from all shifts. They were asked: Are residents able to dress, shower, and toilet without being viewed by staff of the opposite gender? One hundred percent of staff interviewed (12) stated that residents are allowed to dress, shower, toilet without being viewed by staff of the opposite gender. During the facility onsite review, the showers and restroom were observed.

Facility Random Staff: Twelve (12) staff were randomly interviewed. The random staff representing staff from all shifts. They were asked: "Do you or other staff announce your presence when entering a housing unit that houses residents of the opposite gender (from yourself)?" All twelve staff reported that opposite gender staff announce their presence when entering the resident room. The staff reported that they will make announcement by saying "female staff" or male on the unit. During the facility onsite review the auditor observed staff on the tour announcing their presence.

Resident were asked, are you and other residents ever naked in full view of female or male staff (not including medical staff such as doctors, nurses)? Twenty (20) residents stated they were never naked in full view of female or male staff while showering, dressing, or while using the restroom. Several of the residents said male staff do not come into the female unit.

Resident Interviews: Twenty (20) residents were randomly interviewed. Sixteen (16) males and four (4) females from the CT Department of Corrections. The arrival year: 20 entered in 2022. They were asked: Do female or male staff announce their presence when entering your housing area? Twenty (20) residents indicated that staff announce their presence, by saying something like "female or male staff on the floor".

115.215 (e)

The facility shall not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or inf necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

Facility Random Staff: Twelve (12) staff were randomly interviewed. The random staff representing staff from all shifts. They were asked: "Are you aware of the policy prohibiting staff from searching or physically examining a transgender or intersex for the purpose of determining that resident's genital status?" Twelve reported yes, that they were aware of the policy prohibiting staff from searching or physically examining a transgender or intersex for the purpose of determining the resident's genital status. Some staff were able to further articulate that such determination would be addressed with medical staff.

115.215 (f)

The agency shall train security staff in how to conduct cross-gender pat down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Discussion: The agency/facility prohibit cross-gender pat-down searches of female resident, absent exigent circumstances. If and exigent circumstance occur the facility will document the process. The facility does not restricted access to programming and other opportunities to comply with this provision.

The facility also has a policy prohibiting cross-gender strip searches and cross-gender visual body cavity searches. Again, if and exigent circumstance occur the facility will document the process.

The facility policy, procedures and practices allow residents to shower, perform bodily functions, and change clothes without being viewed by non-medical staff of the opposite gender. Staff of the opposite gender announce their presence when entering a resident housing unit, room, bathroom, or shower; thus, allowing the resident to cover up.

During the audit period, the facility did not have transgenders or intersex residents.

The agency has taken another step to ensure residents/residents have access to professional interpretive services via a contract with "Interpreters and Translators, Inc. Facility Random Staff: Twelve (12) staff were randomly interviewed. The random staff representing staff from all shifts. They were asked: Does the agency ever allow the use of resident interpreters, resident readers, or other types of resident assistants to assist residents with disabilities who are limited English proficient when making an allegation of sexual abuse or sexual harassment? Prior to a resident identified above arriving at the program, program leadership and the funding agency have a discussion to confirm that this is the best fit and safest location for the resident. When the resident arrives, program staff have a conversation with the resident to find out how the program can accommodate the resident so that the resident is and feels safe. If the accommodation is not possible then program leadership will discuss with DOC a possible solution or transfer to another program for the resident.

The facility utilizes this information to assist in housing decisions. In facility procedures, a resident who is identified as being at risk is housed in rooms closest to the Patient Care Associate desks. This ensures there is close contact and frequent observation with these residents. Further, this information will ensure that a potential victim is not housed with a potentially abusive resident.

Discussion: Abusive residents will not be housed with a known victim or a vulnerable resident. Prior to a resident identified above arriving at the program, program leadership and the funding agency have a discussion to confirm that this is the best fit and safest location for the resident. When the resident arrives, program can accommodate the resident so that the resident is and feels safe. If the accommodation is possible then the program will comply and if the accommodation is not possible then program leadership will discuss with DOC a possible solution or transfer to another program for the resident. The program ensures that the resident can shower alone and if the resident requests it, use the bathroom facilities by themselves.

Staff were asked, where do the facility place vulnerable or abusive resident in and open housing units? Staff indicated that residents at risk of being sexually abused and those who are likely to abuse other resident are bunked at opposite sides of the dormitory. The vulnerable resident is bunked near the door that enters the housing unit or closest to staff location.

Central Office: PREA investigator question, how do you handle anonymous or third-party reports of sexual abuse or sexual harassment? Anonymous and third-party reported are accepted and investigated according to policy. In general, they are not investigated differently, although depending on timing of the report, the resident may have already been discharged from the facility that may present challenges in completing the investigation. We generally have knowledge of where a resident transitions at least over the short-term. We also have cell phone numbers (unfortunately frequently change) and emergency contact information that would also be utilized. The facility would make every possible attempt contact the person to conduct the investigation.

Central Office: PREA investigator question, how long does it take to initiate an investigation following an allegation of sexual abuse or sexual harassment? And what would be the first steps in initiating and investigation and how long would they take? The first response to an allegation of sexual abuse/sexual harassment is to ensure the immediate safety of the victim. This include removing the proximity of the victim and the abuser, providing access to a victim's advocate, first aid and or urgent medical care all while preserving all evidence. The response team would meet, and a prompt investigation would be immediate initiated.

115.271 (b)

Where sexual abuse is alleged, the agency shall use investigators who have received special training in sexual abuse investigations pursuant to standard 115.34. Training topics include Techniques for interviewing sexual abuse victims, Proper use of Miranda and Garrity warnings, Sexual abuse evidence collection in confinement settings and the criteria and evidence required to substantiate a case for administrative or prosecution referral.

115.271 (c)

Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

Discussion: The investigators who handle sexual abuse and sexual harassment incidents has training in sexual abuse investigations. Investigators are responsibility of gathering and preserving evidence in the case; interview all parties to include victims, perpetrators, witnesses, etc.; and review prior complaints and reports of sexual abuse involving the suspected perpetrator.

115.271 (d)

When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

The agency will not conduct PREA criminal investigations. All PREA allegations within funded programs will be referred to the Connecticut State Police for investigation. All PREA allegations in DOC funded programs will be referred to State of Connecticut Department of Correction's PREA Investigation Unit for investigation.

Central Office: PREA investigator question, when you discover evidence that a prosecutable crime may have taken place, do you consult with prosecutors before you conduct compelled interviews? If internal investigation indicated prosecutable crime, the allegation would be turned over to the Police to investigate. The facility would not conduct compelled interviews and would cooperate with the Police investigation.

115.271 (e)

The credibility of an alleged victim, suspect, or witness shall be assessed on an individual as is and shall not be determined by the person's status as resident or staff. No agency shall require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

Central Office: PREA investigator question, would you, under any circumstances, require a resident who alleges sexual abuse to submit to a polygraph examination or truth-telling devices as a condition for proceeding with an investigation. No. Would never require a resident to submit to polygraph testing. This would be outside the scope of an internal investigation conducted by agency – any allegation would be investigated without these tests.

115.271 (f)

Administrative Investigations:

- Shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and
- Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Central Office: PREA investigator question, what efforts do you make during an administrative investigation to determine whether staff actions or failures to act contributed to the sexual abuse. The agency/facility will make every effort to determine whether staff actions or failures to act contributed to the abuse. These efforts will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

This is a vital component of any investigation – what steps can the agency take to reduce potential recurrence in the future. Again, staff training and policy review are key factors to consider here.

115.271 (g)

Criminal investigations shall be documented in a written report that contains a through description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.

Central Office: PREA investigator question, are criminal investigations documented? What is contained in that report? Yes, criminal investigations are documented in a written report that contains a through description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. The outside entity that is conducting the criminal investigation made add additional documentations. The facility does not conduct criminal investigations. The facility will collaborate with the entity conducting the criminal investigation.

115.271 (h)

Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.

Central Office: PREA investigator question, when you discover evidence that a prosecutable crime may have taken place, do you consult with prosecutors before you conduct compelled interviews? When the quality of evidence appears to support criminal prosecution, the agency conducts compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

115.271 (i)

The agency shall retain all written reports referenced in paragraphs (f) and (g) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

The agency retains all written reports regarding investigations.

- Ensuring that all reports are retained for the entirety of the alleged abuser is incarcerated or employed by the agency plus five years.

115.271 (j)

The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

Central Office: PREA investigator question, how do you proceed when a staff member alleged to have committed sexual abuse terminates employment prior to a completed investigation into his/her conduct? Following an allegation by a resident involving a staff person, they are immediately suspended from the work force pending investigation. At the time of suspension, they are given no additional information beyond a compliant has been received and would be investigated and that they would be contacted for interview. No determination is made regarding the status of continued employment at that time. Should they attempt to terminate employment, they would be counseled on the risks of their decision, including the possibility legal involvement based on the nature of the allegation and it would be in their best interest to cooperate with the investigation. Failure to cooperate in the investigation would result in termination of employment and the employee would be flagged as ineligible for rehire.

The investigation proceeds the same as any other allegation – it is reported to the criminal investigator to continue regardless of employees' status with the agency/facility.

Central Office: PREA investigator question, how do you proceed with a victim who alleges sexual abuse or sexual harassment or an alleged abuser leaves the facility prior to a completed investigation into incident? The facility generally knows where persons discharging from the facility are going for continued care – as least 30 days post-discharge from the program, which is more than adequate time to complete most investigations. The facility would continue the investigation

provided the parties are cooperative with contacts. The investigator proceeds the same as any other allegation – the review continues and reported to authorities if needed.

115.271 (k)

Any State entity or Department of Justice component that conducts such investigations shall do so pursuant to the above requirements.

The agency stated that they will comply with any DOJ investigation.

115.271 (l)

When outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.

Central Office: PREA investigator question, when an outside agency investigates an incident of sexual abuse in the facilities, what role do you play? The investigator provides any information requested and assist in any way they can as requested. When outside agency investigates sexual abuse, the facility fully cooperates with the investigating authority. Additionally, the agency/facility would make every effort to stay informed as to the status of the investigation.

Central Office Staff: Agency PREA Coordinator question, if an outside agency investigates allegations of sexual abuse, how does the agency remain informed of the progress of a sexual abuse investigation? The PREA coordinators are responsible for maintaining regular contact with the outside agency that is investigating the allegations. The facility completes internal investigations for all allegations. If an external entity (Police Department) is involved, the agency will fully support the investigation by the external entity/

Discussion: The agency/facility ensure that all allegations of sexual abuse and sexual harassment are investigated thoroughly and properly. The agency/facility when investigated can deter sexual abuse and sexual harassment by ensuring that investigations are documented and documentary evidence is preserved; investigations are completed regardless of the status of the victim or perpetrator, and all substantiated allegations that rise to the level of a criminal offense are referred for prosecution.

The administrative investigations try to determine whether staff action or failures to act contributed to the abuse. The investigations documented in a written report that describes the physical and testimonial evidence if any, the reasoning behind assessments, and investigative facts and findings.

The criminal investigations are also documented in a written report that contains a thorough description of the physical, testimonial, and documentary evidence. The agency/facility retain the investigations for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

When investigations are conducted outside of the agency/facility, the facility cooperate with the outside investigator and remain informed about the progress of the investigations.

The investigators who handle sexual abuse incidents has training in sexual abuse investigations. Investigators are responsible for gathering and preserving evidence in the case; interview all parties to include victims, perpetrators, witnesses, etc.; and review prior complaints and reports of sexual abuse involving the suspected perpetrator.

During the site review the auditor made numerous observations, including the posting of Notices of PREA Audits, PREA Related Posters, and TIP Posters (with phone numbers to call to report any concern or condition), notices advising resident that female staff routinely work in the facility, locations of showers and privacy issues, bathrooms, medical/grievance boxes, requests forms and boxes for requests, configuration of living units, capacities of dorm/bed rooms, observations of blind spots, camera deployment, the use of mirrors to mitigate blind spots, staffing levels, supervision of resident, accessibility to telephones and instructions for using the phones to report sexual abuse, main control room, dayroom, classrooms, etc..

APT Residential Services utilizes a camera system that is gender specific with limited ability to review, alter or destroy the surveillance videos. There are only three (3) individuals who are authorized to review the video when appropriate and must be directed by the management team. The facility employs cameras in the building that cover common areas, laundry rooms, hallways, fire escapes and the entire exterior of the building. The program also has door alarms on all the enterer and exterior doors so that staff will be aware when a door has opened 24/7. The general population must ring a doorbell before the exterior door is open so that staff can visibly see who is visiting or waiting to enter. Each floor monitor is specific to the floor i.e. women can only see the women's floor and men can only see the men's floor.

The facility is divided into four living units.

- First Floor Women's and Children Program Unit has a total of 18 contracted beds (15 DMHAS and 3 CSSD). Bedrooms: 18 single occupancies with individual bathrooms.

The auditor was provided unimpeded access to all parts of the facility and all secure rooms and storage areas in the facility. While inspecting the facility, doors and offices were checked consistently to ensure they are secured and locked. The auditor observed the location of staff. Informal dialogue occurred with residents and staff, asking PREA related questions and agency procedures a safety consideration. Residents that engaged in conversation with the auditor discussed feeling safe at the facility.
